

INSTALLATION INSTRUCTIONS FOR GIMBAL CUP ON CLASSIC FOLDING DECK CHAIR

- 1.** Remove the seat bottom (FIG1, 1) by unscrewing the (4) screws (FIG1, 2) securing it to the seat frame.
- 2.** Locate the gimbal assembly included with your chair and remove the (4) screws that attach the gimbal cup assembly (FIG1, 3) to the gimbal plate (FIG1, 4).
- 3.** Place the gimbal cup assembly onto the bottom of the seat frame in the desired location as shown.
- 4.** Install the (4) longer screws (FIG1, 5) through the gimbal plate and into the gimbal cup assembly as shown.
- 5.** Tighten the (4) screws so that the gimbal is snug but can still be rotated around the frame rail.
- 6.** Reinstall the seat bottom to the frame using the (4) screws you removed. The gimbal plate should be flush with the seat bottom. Take care not to over tighten the screws.
- 7.** Check the gimbal assembly for proper location and movement. Adjust as needed.
